BACKGROUND:

- o The 6.9± acre site consists of three parcels, two containing a single-unit dwelling and zoned in the R-1, Residential District, the other contains a drive-through / carry out zoned CPD, Commercial Planned Development District. A request to rezone half of the site to a CPD, Commercial Planned Development District to accommodate a 180-unit extended-stay hotel development over the entire site was recommended for disapproval by the Development Commission at the July 2016 meeting, and has been highly opposed by the neighborhood. Considered again at the December 2016 meeting, the applicant revised the proposal to an L-AR-1, Limited Apartment Residential District for a 156-unit apartment complex with increased setbacks and landscaping on the northern portion of the site. The application was tabled by the commission. A newly revised site plan has been submitted with a reduction to 144 units situated in three-story buildings oriented towards the center of the site with parking and garages located at the periphery.
- The site is bordered to the north by single-unit dwellings in the R-2, Residential District. To the south are commercial properties in the L-C-4, Limited Commercial and CPD, Commercial Planned Development districts which is proposed to be developed in conjunction with the subject site. To the east across Walcutt Road is an industrial center zoned M, Manufacturing District. To the west is multi-unit residential development, off of Roberts Court, zoned, AR-12, Apartment Residential District.
- Companion CV16-057 has been filed to vary the parking and building setbacks to zero feet along the southern boundary as opposed to the twenty-five for a perimeter yard required in the AR-1 District. That request will be heard by City Council and will not be considered at this Development Commission meeting.

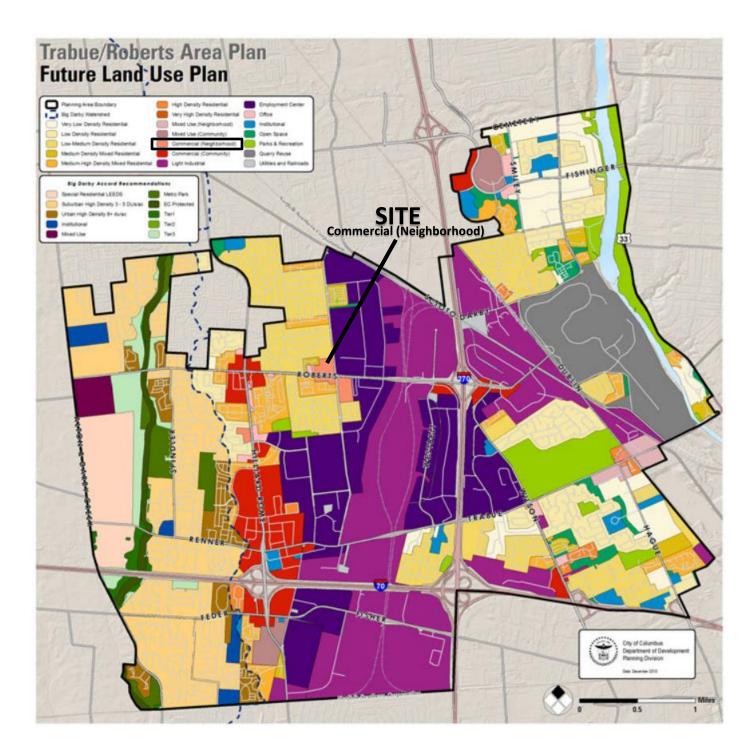

- The site is located within the planning area of the *Trabue/Roberts Area Plan* (2011), which recommends "Commercial (Neighborhood)" land uses for this location.
- The development text provides commitments for maximum number of units, setbacks, building height, site access, buffering and landscaping, building materials, and a site plan.
- The Columbus Thoroughfare Plan identifies Walcutt Road as a 4-2 arterial requiring a minimum of 50 feet of right-of-way from centerline.

CITY DEPARTMENTS' RECOMMENDATION: Disapproval.

The requested L-AR-1, Limited Apartment Residential District would permit the construction of a 144-unit apartment complex with a density of 20.72 units/acre. The proposed use at this location is incompatible with the land use recommendation of the *Trabue/Roberts Area Plan*, which recommends "Commercial Neighborhood" land uses for this location. Multi-unit residential development is not included within the neighborhood commercial designation's supported uses. Staff does not believe that deviation from the Plan's land use recommendation is warranted on the subject site.
